### 🧠 Skills

---

#### Programming Language/Scripts

JavaScript, html, css, Java | ReactJs

#### Tools & IDE

GIT, Jenkins, Jira, Visual Studio Code

#### Design tools

Figma, Material-UI, Ant Design, Photoshop

#### Database

MongoDB, MySql

#### Natural Language

French, English, Cantonese

### 🧰 Work Experience

---

Apr 2022 – Nov 2024  
Montreal, Canada

#### Portable EHR, Software Developer

- Designed the front-end architecture using React with components, Redux, routing, and i18n translation.
- Developed a portal web application enabling users to book appointments, chat, and automate generic questions for clients.
- Integrated web sockets for real-time, bidirectional communication in chat functionality and notifications.
- Crafted seamless and intuitive UI/UX designs, including color palettes, user flow, and reusable components.

Mar 2020 – Feb 2022  
Montreal, Canada

#### Geothentic, Full Stack Developer

- Contributed to integrating web sockets for real-time fleet tracking, including location, fuel consumption, horometer, odometer, and vehicle status.
- Designed and implemented complex UI/UX features for web applications using React.js, leveraging reusable components, state management, and dynamic rendering.
- Participated in weekly scrum meetings to discuss progress, address blockers, and ensure timely delivery of features and bug fixes.

Jan 2019 – Nov 2019  
Montreal, Canada

#### Skylow, Web Developer [Internship]

- Assessed, developed, and managed software projects to align with weekly deliverables and objectives.
- Engineered solutions tailored to client requirements and strategic business goals.
- Led collaborative peer reviews to refine, optimize, and rigorously test newly implemented features.

### 🎓 Education

---

Sep 2017 – May 2020  
Montreal, Canada

**BACHELOR OF SCIENCE, COMPUTER SCIENCE,**  
**CONCORDIA UNIVERSITY**
